HEPTech Academia meets Industry: Environmental Applications of Accelerators

9 July 2013 Cockcroft Institute, UK

Breakout sessions

Dr Katharine Robertson

HEPTech

Leading HEP technologies for industry
Technology Transfer opportunities

Knowledge
Transfer
Network

Environmental
Sustainability

Breakout sessions

The discussions will be based around the **challenges** identified in the talks from United Utilities and Black & Veatch, and the **solutions** suggested in the accelerator technology talks

Aims:

1. Identify where there are technology solutions **already available**
2. Identify where further technology developments are **needed**
3. Identify **opportunities for collaborative R&D**

The facilitators will report back a brief summary of the discussions to all delegates after coffee at 1440

Breakout sessions

Breakout session 1: Water Treatment

Walton Room C

Facilitator: Jonathan Abra Note taker: Katharine Robertson

Breakout session 2: Sludge Treatment

Walton Room A/B

Facilitator: Dewi Lewis Note taker: Anthony Gleeson
