

# 3rd EIROforum School on Instrumentation

## Wednesday, May 29, 2013

**Industry - 503/1-001 - Council Chamber (1:30 PM - 6:30 PM)**

| time    | [id] title   | presenter               |
|---------|--|-------------------------|
| 1:30 PM | [M1] Introduction Technology Transfer  | CHESTA, Enrico          |
| 1:50 PM | [M2] Industrialization aspects of scientific instrumentation - Example of a spin-off from CERN | Prof. GRIESMAYER, Erich |
| 2:25 PM | [M3] Digital SiPM  | FRACH, Thomas           |
| 3:00 PM | Coffee break   |                         |
| 3:30 PM | [M5] Commercialization of the Alibava system   | LOZANO FANTOBA, Manuel  |
| 3:50 PM | [M4] Development Process of CMOS Readout ASICs for Single-Photon Counting X-Ray Detectors      | LOELIGER, Teddy         |
| 4:25 PM | [M6] From innovation to product – the challenge of disruptive technologies                     | Dr HAEMISCH, York       |
| 5:00 PM | [M7] Podium discussion with industrial speakers  | CHESTA, Enrico          |
