

Forum on Tracking Detector Mechanics 2013

Wednesday, 19 June 2013 - Friday, 21 June 2013

Oxford

Book of Abstracts

Contents

Detector Module R&D for the future CMS Tracker	1
Modularity in the ATLAS upgrade strip tracker	1
Technical support and activities in Oxford	1
Welcome	1
Mechanical and cooling considerations for the upgrade to the LHCb vertex detector	1
Layout concept with tilted modules for the future CMS Tracker	1
Saga of the IBL staves	1
Construction requirements for large scale tracking detectors.	2
Fiber Bragg grating sensors for smart-trackers: a real-time deformation, temperature and humidity monitor for the BELLE-II vertex detector	2
Presentation	2
Materials Studies for Tracker Support Structures for HL-LHC	2
Prototyping the Micro-Vertex Detector for CBM: Integration of thinned CMOS sensors and thermal management	2
Construction and Commissioning of the SuperNEMO Tracker Demonstrator	2
Mechanics for the CMS Upgrade Forward Pixel Detector	3
Microfabricated silicon on-detector cooling systems	3
ATLAS IBL Thermal Mock Up	3
Thermal Design of the ATLAS upgrade staves	3
Dimensioning of CO ₂ cooling pipes in detector structures	3
C ₂ F ₆ /C ₃ F ₈ saturated fluorocarbon cooling blends for the ATLAS SCT	3
Presentation	4
CMS Tracker services: from conception to operation, and on to upgrade	4
Small-size detachable fittings for ATLAS IBL	4

Radiation protection aspects for the Phase II upgrade of ATLAS and CMS	4
Remote Handling for Phase-II	4
ATLAS Radiation Protection Issues and Strategy	4
Material evaluation	5
Large Scale Metrology for Tracking Detectors–Experience from LHC and Prospects	5
Close-out	5
Assessment of local compliance in joints and mounts of global support structures	5

4

Detector Module R&D for the future CMS Tracker

Corresponding Author: andreas.mussgiller@cern.ch

5

Modularity in the ATLAS upgrade strip tracker

Corresponding Author: ian.wilmot@stfc.ac.uk

6

Technical support and activities in Oxford

Corresponding Author: johan.fopma@physics.ox.ac.uk

7

Welcome

8

Mechanical and cooling considerations for the upgrade to the LHCb vertex detector

Corresponding Author: malcolm.john@cern.ch

9

Layout concept with tilted modules for the future CMS Tracker

Corresponding Author: aleksis.chavez.niemela@cern.ch

10

Saga of the IBL staves

Corresponding Author: franck.cadoux@unige.ch

11

Construction requirements for large scale tracking detectors.

Corresponding Author: stephen.mcmahon@cern.ch

12

Fiber Bragg grating sensors for smart-trackers: a real-time deformation, temperature and humidity monitor for the BELLE-II vertex detector

Corresponding Author: david.moya.martin@cern.ch

13

Presentation

14

Materials Studies for Tracker Support Structures for HL-LHC

Corresponding Author: tim.jones@cern.ch

15

Prototyping the Micro-Vertex Detector for CBM: Integration of thinned CMOS sensors and thermal management

Corresponding Author: tobias.hubertus.tischler@cern.ch

16

Construction and Commissioning of the SuperNEMO Tracker Demonstrator

Corresponding Author: decapua.stefano@gmail.com

17

Mechanics for the CMS Upgrade Forward Pixel Detector

18

Microfabricated silicon on-detector cooling systems

Corresponding Author: alessandro.mapelli@cern.ch

19

ATLAS IBL Thermal Mock Up

Corresponding Author: francois-xavier.nuiry@cern.ch

20

Thermal Design of the ATLAS upgrade staves

Corresponding Author: g.beck@qmul.ac.uk

21

Dimensioning of CO₂ cooling pipes in detector structures

Corresponding Author: bart.verlaat@cern.ch

22

C₂F₆/C₃F₈ saturated fluorocarbon cooling blends for the ATLAS SCT

Corresponding Author: alexander.bitadze@cern.ch

23

Presentation

24

CMS Tracker services: from conception to operation, and on to upgrade

Corresponding Author: karl.aaron.gill@cern.ch

25

Small-size detachable fittings for ATLAS IBL

Corresponding Author: pierre.delebecque@lapp.in2p3.fr

26

Radiation protection aspects for the Phase II upgrade of ATLAS and CMS

Corresponding Author: christina.urscheler@cern.ch

27

Remote Handling for Phase-II

Corresponding Author: siegfried.wenig@cern.ch

28

ATLAS Radiation Protection Issues and Strategy

Corresponding Author: olga.beltramello@cern.ch

29

Material evaluation

Corresponding Author: didier.laporte@lpnhe.in2p3.fr

30

Large Scale Metrology for Tracking Detectors–Experience from LHC and Prospects

Corresponding Author: dirk.mergelkuhl@cern.ch

31

Close-out

52

Assessment of local compliance in joints and mounts of global support structures

Corresponding Author: neal.hartman@cern.ch
