

Session Program

6 May 2013

Remote manipulations / diagnostics in radioactive areas and handling of radioactive material Workshop

***Existing solutions on Remote manipulations /
diagnostics in radioactive areas and handling
of radioactive material***

CERN, 30/7-018 - Kjell Johnsen Auditorium

Monday 6 May

13:40

Existing solutions on Remote manipulations / diagnostics in radioactive areas and handling of radioactive material

Session | **Location:** CERN, 30/7-018 - Kjell Johnsen Auditorium

13:40-14:00

A REMOTELY OPERATED MEASUREMENT AND INSPECTION TRAIN: TIM

Speaker

Bruno Feral

14:00-14:30

REMOTE OVERHEAD TRAVELLING CRANE OPERATION & XTAX TABLE REPAIR: A LARGE-SCALE & REMOTE-CONTROLLED EXERCISE @ CERN

Speakers

Keith Kershaw, Sebastien Evrard

14:30-14:50

REMOTE INSPECTION VEHICLE

Speaker

Ramon Folch

14:50-15:10

REMOTE SURVEY OPERATIONS

Speaker

Patrick Bestmann

15:10-15:30

ATLAS VT Sliding Support motorization

Speakers

Kaan Vatansever, Pedro Noguera Crespo

15:30-15:50

Break

15:50-16:10

Integrating remote manipulation constraints within Design Office studies: The EN/MME Role

Speaker

Francesco Bertinelli

16:10-16:40

REMOTE HANDLING AT JET

Speaker

Mr Oliver Crofts

16:40
