

Session Program

13-15 Nov 2013

Asset and Maintenance Management Workshop

***Assets Lifecycle Management, Quality
Assurance, Safety and Availability of Facilities***

CERN, 60/6-015 - Room Georges Charpak (Room F)

Thursday 14 November

08:30

Assets Lifecycle Management, Quality Assurance, Safety and Availability of Facilities

Session | **Location:** CERN, 40/S2-B01 - Salle Bohr | **Convener:** Zornitsa Zaharieva

08:30-08:40

Introduction to Assets Management at CERN and Enforcing QA through the Naming Service

Speaker

Zornitsa Zaharieva

08:45-09:05

Overview of the Layout Service Functionalities and their Usage to Facilitate the Assets Management at CERN

Speakers

Eve Fortescue-Beck, Pascal Le Roux

09:10-09:25

CERN Accelerators Topology Configuration and Change Management

Speakers

Mr Samy Chemli, Thomas William Birtwistle

09:35-09:50

Quality Management of CERN Vacuum Controls

Speakers

Fabien Antoniotti, Paulo Gomes

10:00-10:30

Coffee break

10:30-10:45

Renovation of the Accelerators Controls Infrastructure and its Assets Management

Speakers

Claude Dehavay, Marc Vanden Eynden, Dr Marine Gourber-Pace, Sylvestre Catin, Zornitsa Zaharieva

10:55-11:10

Users' Perspective of the Management of Elements Important for Safety (EIS) in Beam Facilities at CERN

Speakers

Anne Funken, Marc Tavlet

11:15-11:30

Development Strategies and Overview of the Main Functionalities of the Traceability of Radioactive Equipment at CERN (TREC) System

Speakers

Hernan Diaz Rodriguez, Luca Bruno, Maciej Piotr Kepinski, Sonia Mallon Amerigo, Tim Schmittler

11:35-12:00

Availability Tracking as a Means to Increase LHC Physics Production

Speakers

Andrea Apollonio, Dr Benjamin Todd, Laurette Ponce

12:00
