## Dark Matter search at LHC

*Tuesday, 17 September 2013 11:30 (25 minutes)*

The existence of significant amount of dark matter in the Universe is one of the strongest motivations to have new physics beyond the Standard Model. Dark Matter search at LHC with a focus on conventional candidates and techniques (e.g. SUSY) in ATLAS and CMS experiments using data from 2011 and 2012 will be reviewed in the talk.
