1ˢᵗ InDiCo Workshop at CERN

Wishlist
Wildest Dreams and Crazy Ideas

Dirk Hoffmann
Centre de Physique des Particules de Marseille

1. Short URL

- **Make short URL visible where social option is disabled!**

2. Ergonomy

- **"Add contribution" is about the most used feature in a Meeting – which is not accessible from the Event View.**

3. *User management*

- **Remove last Identity from Avatar**

- **Remove Avatar completely**

- **Arguments:**
    - Increase Security (unused Id enabled by error)
    - Tidy up
    - Reuse of UIDs (Avatar) and e-mail (Identity)

4. Crypt passwords?

- **No comment**

5. Connect to AzurColloc

- **Standard CNRS e-payment system**

Extranet

29 Mai 2013

Prochains colloques

Voici la liste des prochains colloques :

CIBB 2013 & PRIBB 2013	Tenth International Meeting on Computational Intelligence Methods for Bioinformatics and Biostatistics & 8th IAPR International on Pattern Recognition in Bioinformatics 2013	Informations	Se préinscrire	Valider votre préinscription	
Figures du discours et Contextualisation	Figures du discours et Contextualisation	Informations	Se préinscrire	Valider votre préinscription	
IPEWG 2013	International Primitive Body Exploration Working Group	Informations	Se préinscrire	Valider votre préinscription	Réserver une chambre d'hôtel
MFRB	École 'Modélisation Formelle de Réseaux de Régulation Biologique	Informations	Se préinscrire	Valider votre préinscription	
Peyresq	XVIIème Aux Rencontres de Peyresq	Informations	Se préinscrire	Valider votre préinscription	
SAMO 2013	Sensitivity Analysis of Model Output 2013	Informations	Se préinscrire	Valider votre préinscription	
VLTISCHOOL	VLTI School: High angular resolution for stellar astrophysics	Informations	Se préinscrire	Valider votre préinscription	

6. Connect to more services

- **RENATER MCU (former IN2P3 MCU)**

- **DFN MCU**

- **SeeVogh**
  - Should still work with existing EVO plugin?

- **phpMyResa
(IN2P3 room and resources booking)**

7. User administered options

- **IP domains**
- **InDiCo groups (minimal!)**
- **CSS by user**
- **XSLT by user**

8. *Light-weight entries*

- **instead of a Category:**

  - Link (external/internal) to a category

- **instead of an Event:**

  - Calendar-only entry (date, place, name) like iCal/ICS

RFPI (request for information)

- **InDiCo dashboard**

- **Statistics updater HowTo**

- **Upgrade procedure (on the fly?)**

Communication

- **Official wishlist / roadmap?**

- **User/pilot meetings (1-2 per yr.?)**

- **Understand
  CERN-specific vs. general development**

  - Allows to schedule external contributions optimally

- **Documentation upate?**

… but not the least!

By the way …

Thank you for the nice workshop, the organisation, ideas, discussions

and the incredible ant-like
real-time online support
during the hands-on sessions!

Hope to see you soon again!
