ODIN 1ˢᵗ year conference

Closing Summary

Amir Aryani

October 17, 2013

Toward seamless interoperability

Collaboration on common infrastructure

Collaboration on disambiguation (author disambiguation, duplicated records and collections of collections)

Collaboration on building the culture of data citation and data re-use

Building a Culture of Data Citation

CREATE

3

doi is used in data citation

4

USE

Australian researcher creates a research dataset and a publication related to the dataset

Dataset is stored in a publicly accessible repository

1

Researcher uses ANDS services to mint a Digital Object Identifier (doi) for the dataset

2

Research community use the doi to access the dataset and carry out related research

Research community generate new publications using the doi to reference the dataset

Citation metrics services (eg Scopus, Web of Knowledge) accumulate citation references to the dataset and publication

5

Researcher future funding and promotion influenced by dataset citation metrics

7

Funding and research groups review publication and dataset citation metrics

REWARD

6

MEASURE
