

Session Program

19-24 May 2013

FPCP 2013 - Flavor Physics & CP Violation

CKM angles

Buzios - Rio de Janeiro
Hotel Atlântico Búzios Brazil

Sunday 19 May

11:30

CKM angles

Session | **Location:** | **Convener:** Miriam Mendes Gandelman

11:30–12:00

Recent developments on CKM angles

Speaker

Wei Wang

Location

12:30

14:00

CKM angles: II

Session | **Location:** | **Convener:** Ignacio De Bediaga Hickman

14:00–14:30

Charmless 3-body B decays and γ measurement

Speaker

David London

Location

14:30–15:00

CPT constraint in direct CP violation in Beauty and Charm

Speaker

Ikaros Bigi

Location

15:00–15:30

Studies of charmless B decays, including CP violation effects

Speaker

Irina Nasteva

Location

15:30–16:00

Three-body heavy meson decays: final state interaction

Speaker

Manoel Robilotta

Location

16:00

16:30

CKM angles: III

Session | **Location:** | **Convener:** Bruno Souza De Paula

16:30–17:00

γ from e^+e^- colliders

Speaker

Matteo Rama

Location

17:00–17:30

Measurement of γ from $B \rightarrow DK$ and related modes**Speaker**

Till Moritz Karbach

Location

17:30–18:00

 ϕ_2/α measurement at e+e- colliders**Speaker**

Pit Vanhoefer

Location

18:00–18:30

 $\sin 2\beta/\phi_1$ measurements**Speaker**

Riccardo de Sangro

Location

18:30
