

Agenda (WP2 tconf 2007.11.16)

- Use-cases development
 - Story 3 ?
 - Good progress with disease-specific use-cases
 - Story 2: cool that we have two rather different viewpoints, need to match these
 - Story 1: TODO: rheuma and brain instances
 - Abstraction should align with high-level goals
 - Missing: clinical data visualization, external knowledge
- Demonstration next year
 - Short-term priority is Story 1 because we don't have many cases
 - Story 2: we could do with stress-testing with fake data
- Bottom-up - Inventory of technologies
 - Tamas to do skeleton document and merge in contribs, others to send
 - Declare Categories, e.g. currently used/in the pipeline/future research
- Elicitation
 - What to show/discuss?
 - Use-cases start looking nice
 - Demonstrable things?
 - Objectives
 - Who should go
- Logistics:
 - WP2 Meeting in Nice confirmed
 - Hospital visits – initial enquiries sent – Xavier to contact Necker
 - Use googledocs please.
