

HEPSYSMAN RAL June 2013

Pete Gronbech

GridPP
UK Computing for Particle Physics

Agenda

- Security Workshop has gone very well.
- Thanks to Leif Nixon for running the workshop and John Green for doing most of the organisation.
- Today is John's last day with us, so we thank him for all his work for GridPP.

- Today's meeting will start with a hardware focus, discussing equipment we have recently purchased and what we should be looking at next time.
- This is followed by Viglen giving us a technical update, before dinner which they are kindly sponsoring. Thanks!!

- We are broadcasting the meeting via EVO
- The idea is for the meeting to be interactive, allowing discussion
- However quite a few topics on the agenda for tomorrow so will try not to over run.
- Please email slides to Gareth or I to upload to indico in good time before your talk.
- Hepix, IPv6, SL6, Batch Systems, monitoring, Puppet and storage topics.
