

Early LHC Data

A simple question:
What does the *average*
LHC collision look like?

Early LHC Data

A simple question:
What does the *average*
LHC collision look like?

“Minimum-Bias”

~ All collisions with ≥ 1 particle hitting something

NO HARD SCALE

Extremely sensitive to IR effects
→ Excellent LAB for studying IR effects

Early LHC Data

A simple question:
What does the *average* LHC collision look like?

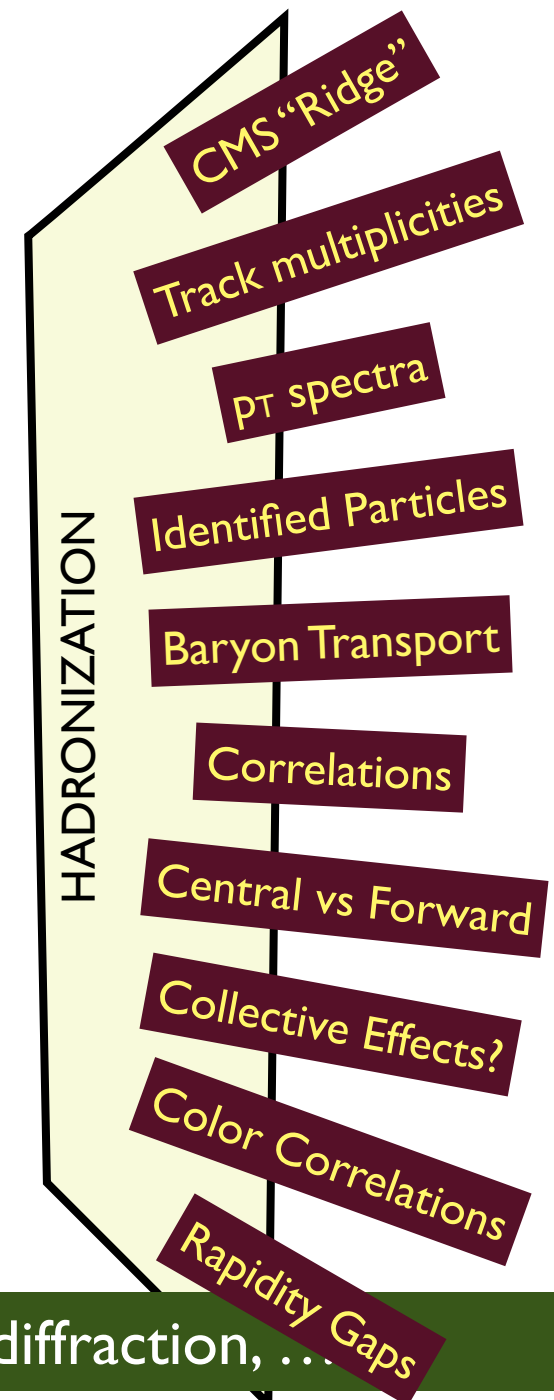

“Minimum-Bias”

~ All collisions with ≥ 1 particle hitting something

NO HARD SCALE

Extremely sensitive to IR effects
→ Excellent LAB for studying IR effects

~ ∞ statistics + tails → perturbative QCD, high-multiplicities, diffraction, ...

Early LHC Data

A simple question:
What does the *average* LHC collision look like?

“Minimum-Bias”

~ All collisions with ≥ 1 particle hitting something

NO HARD SCALE

Extremely sensitive to IR effects
→ Excellent LAB for studying IR effects

~ ∞ statistics + tails → perturbative QCD, high-multiplicities, diffraction, ...

+ universality → can constrain models and re-use for hard processes → underlying event

Test4Theory - LHC@home

LHC@home 2.0 Test4Theory volunteers' machines seen during the past 24 hours (7011 machines overall)

The LHC@home 2.0 project [Test4Theory](#) allows users to participate in [running simulations of high-energy particle physics](#) using their home computers.

The results are submitted to a [database](#) which is used as a common resource by both experimental and theoretical scientists working on the [Large Hadron Collider](#) at CERN.

New: Citizen Cyberlab EU ICT

Develop an app that lets citizen scientists learn about, interact with, and optimize **high-energy physics simulations**, by comparing them to real data

The QCD Fractal

Bremsstrahlung

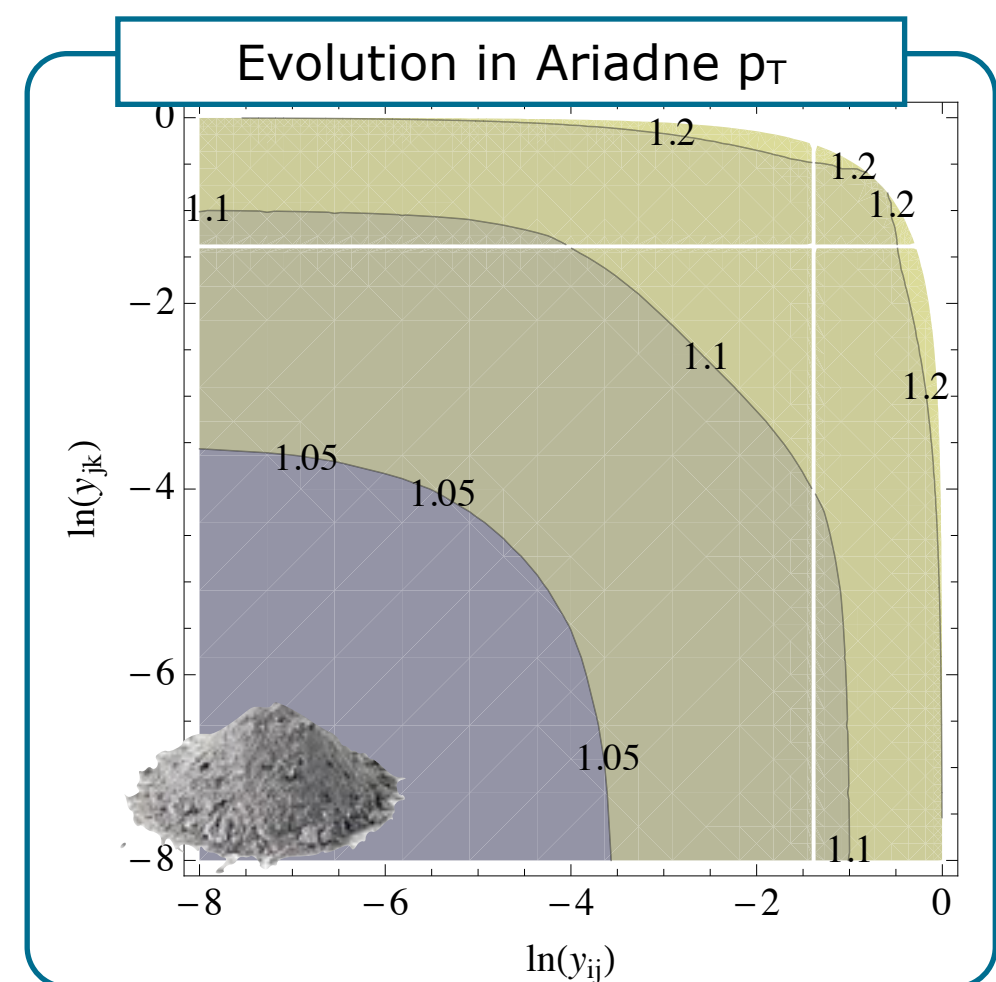

Driven by singularities of on-shell propagators

→ Quasi-scale invariant structure : parton shower

Higher-order corrections → more insight, higher accuracy

VINCIA

The QCD Fractal

Hendrik Mantler

Bremsstrahlung

Driven by singularities of on-shell propagators

→ Quasi-scale invariant structure : parton shower

Higher-order corrections → more insight, higher accuracy
