Tue-Af-Posters Session 1.2: Cryocoolers I (14:15 - 16:00)

-Conveners: Naiho Song

[id] title	presenter	board
[134] Experimental Investigation of Cooling Capacity of 4K GM Cryocoolers in Magnetic Fields	Mr MORIE, Takaaki	
[101] Development of compact 2K GM cryocoolers	Dr XU, Mingyao	
[73] Performance study of hybrid space cryocoolers working at liquid helium temperature	Mr LIU, Dongli	
[84] CFD simulation and optimization of a 10K VM refrigerator	Prof. WANG, Junjie	
[156] Theoretical Study on Standing Wave Thermoacoustic Engine	Prof. HEMANT, NAIK	
[399] Study on Minor Losses around the Thermoacoustic Parallel Stack in the Oscillatory Flow Conditions	Prof. XIE, Xiujuan	
[126] Development of High Capacity Split Stirling Cryocooler for HTS	Mr KENTA, Yumoto
