

The QCD Critical Point from Lattice Computations

Monday, 9 September 2013 13:00 (30 minutes)

The most recent results from lattice computations on the location of and phenomena at the QCD critical point are presented

Primary author: GUPTA, Sourendu (Tata Institue of Fundamental Research)

Presenter: GUPTA, Sourendu (Tata Institue of Fundamental Research)

Session Classification: Session 2

Track Classification: Hot and Dense Nuclear Matter
