

# 4th International Workshop on Mechanisms of Vacuum Arcs (MeVArc 2013)

## Tuesday 5 November 2013

### Experimental 1 - rf systems (09:00 - 12:30)

-Conveners: Matthew Hopkins

time	[id] title	presenter
09:00	[31] High-gradient test results from CERN XBox-1	WOOLLEY, Ben
09:30	[22] Studies of breakdowns at high-gradients in TBTS/CTF3	DUBROVSKIY, Alexey
10:00	[23] Laser triggered RF breakdown experiment	SHI, Jiaru
10:30	Coffee	
11:00	[7] Recent High Gradient Experiments at SLAC	Dr DOLGASHEV, Valery
11:30	[9] Research and Achievements on X-band accelerator structures at LNF	SPATARO, Bruno
12:00	[20] Multi-Harmonic Cavities with Suppression of Surface Pulsed Heating and Field Emission	YONG, Jiang
