

3rd Low Emittance Ring Workshop

Wednesday, 10 July 2013

Technology: kickers - diagnostics - engineering integration - Denis Sciama Lecture Theatre (09:00 - 12:25)

time	[id] title	presenter
09:00	[29] Report on the miniworkshop on heating from short bunches	REHM, Guenther
09:25	[30] diagnostics for low emittance at SLS	SAA-HERNANDEZ, Angela
09:45	[31] Vertical emittance measurements with undulators	BOLAND, Mark
10:05	[32] Turn by turn beam size measurements with interferometry	WANG, Suntao
10:25	[33] Measurements of the evolution of electron cloud with time-resolving electron detectors	SIKORA, John
10:45	coffee break	
11:05	[34] Engineering integration for diamond low emittance lattice	KAY, James
11:25	[35] Ultrafast kicker tests at KEK	NAITO, Takashi
11:45	[36] SPS ad damping ring	PAPAPHILIPPOU, Yannis
12:05	[37] Multipole kicker magnets	DRESSLER, Olaf

Technology: discussion - Denis Sciama Lecture Theatre (12:25 - 12:55)
