

Session Program

2-5 Dec 2013

First SaporeGravis Workshop (SGW 2013)

Cold nuclear matter effects

Nantes, Building n.2, Amphi L. Pasteur
Faculté de Sciences et Techniques de l'Université de Nantes. Campus Lombarderie - Michelet.

Tuesday 3 December

14:30

Cold nuclear matter effects

Session | **Location:** Nantes | **Conveners:** Cynthia Hadjidakis, Philippe Rosnet, Francois Arleo

14:30–14:55 **Hidden and open heavy flavour in d(p)A production at RHIC energies**

Speaker

Denis Jouan

14:55–15:20

Quarkonium and open heavy flavour production in p-Pb collisions in ALICE

Speaker

Igor Lakomov

15:20–15:45

Bottomonium measurements in p-Pb collisions with CMS

Speaker

Nicolas Filipovic

15:45–16:10

Open heavy flavour and quarkonium hadroproduction in p-Pb and Pb-p collisions in LHCb

Speaker

Nicholas BROOK

16:10–16:40

Coffee break

16:40–17:05

Nuclear pdfs: a status and new constraints from pPb data at LHC

Speaker

Dr Maria Zurita

17:05–17:30

Energy loss in cold nuclear matter from coherent induced radiation

Speaker

Rodion Kolevatov

17:30–17:55

Nuclear effects on quarkonia

Speaker

Elena Gonzalez Ferreiro

18:00
