## **Session Program**

2-5 Dec 2013

## First SaporeGravis Workshop (SGW 2013) Cold nuclear matter effects

Nantes, Building n.2, Amphi L. Pasteur Faculté de Sciences et Techniques de l'Université de Nantes. Campus Lombarderie - Michelet.

## Tuesday 3 December

	ar matter effects ion: Nantes   Conveners: Cynthia Hadjidakis, Philippe Rosnet, Francois Arleo
14:30-14:55 Speaker	Hidden and open heavy flavour in d(p)A production at RHIC energies
Denis Jouan	
14:55-15:20 Quarkonium	and open heavy flavour production in p-Pb collisions in ALICE
<b>Speaker</b> Igor Lakomov	
15:20-15:45	Bottomonium measurements in p-Pb collisions with CMS
<b>Speaker</b> Nicolas Filipovic	
15:45-16:10	flavour and guardenium badrangeduction in a Dhand Dhar callicians
in LHCb	flavour and quarkonium hadroproduction in p-Pb and Pb-p collisions
<b>Speaker</b> Nicholas BROOK	
16:10-16:40	Coffee break
16:40-17:05	Nuclear pdfs: a status and new constraints from pPb data at LHC
<b>Speaker</b> Dr Maria Zurita	
17:05-17:30	Energy loss in cold nuclear matter from coherent induced radiation
Speaker	/
Rodion Kolevato	
	Nuclear effects on quarkonia
