

HEPiX Fall 2013 Workshop

Contribution ID: 25

Type: **Oral presentation**

Latest changes on CERN networks

Tuesday, October 29, 2013 4:30 PM (30 minutes)

The latest changes on the CERN network infrastructure will be presented. This includes the deployment of IPv6, the network connectivity for the Data Centre extension at Wigner and the upgrade of the network infrastructure for Business Continuity. The second part of the talk will give an overview of the implementation of a new, safety-related wireless network (TETRA).
