

HEPiX Fall 2013 Workshop

Contribution ID: 40

Type: **Oral presentation**

HPC Activities at CERN

Tuesday, 29 October 2013 12:00 (30 minutes)

While the majority of physics computing needs are covered sufficiently by the CERN batch services, some other applications have some special requirement and therefore need special treatment.

In this presentation we will discuss which these applications are, the methodology we used in order to gather more in depth statistics and we will present some preliminary results. Finally some future steps and thoughts will be presented.
