

HEPiX Fall 2013 Workshop

Contribution ID: 35

Type: **Oral presentation**

Security update

Wednesday, 30 October 2013 09:30 (30 minutes)

This presentation provides an update of the security landscape since the last meeting. It describes the main vectors of compromises in the academic community and presents interesting recent attacks. It also covers security risks management in general, as well as the security aspects of the current hot topics in computing, for example identity federation and virtualisation.
