## USCMS T1 and LPC Data Storage Challenges and Solutions

*Thursday, 31 October 2013 10:15 (30 minutes)*

The CMS T1 facility at Fermilab manages many tens of petabytes of data for CMS. This talk will present some historical information on the solutions used to store this data as well as information on the new solutions we are in the process of implementing and how we got to where we are now.

**Primary author:** GIACCHETTI, Lisa Ann (Fermi National Accelerator Lab. (US))

**Presenter:** GIACCHETTI, Lisa Ann (Fermi National Accelerator Lab. (US))

**Session Classification:** Storage and file systems

**Track Classification:** Storage & Filesystems
