## Building a Puppet Infrastructure @ DESY

*Monday, 28 October 2013 16:00 (25 minutes)*

Starting in 2012, DESY has been extending its IT systems infrastructure to make use of the Puppet configuration management system developed by Puppetlabs. The main focus of this talk is to share the experience gained in this program of work and to summarize the current status and outlook of the Puppet infrastructure at the DESY site.

### Summary

Status of Puppet at the DESY site.
