

## HEPiX Fall 2013 Workshop

Contribution ID: 36

Type: **Oral presentation**

# Technical security tips and techniques

*Wednesday, 30 October 2013 12:00 (30 minutes)*

This is an interactive technical session aimed at system administrators, and presenting several Linux tools and tips that can be used to both drastically reduce the chance of root compromise, as well as increase the amount of information available during forensics.

(This session is not necessarily meant to be a general presentation for the audience and can also be a dedicated BoF.)
