

Tracking update

# Multiple Dolts for AtRest processes

- We did not assume anybody need multiple Dolts for AtRest processes
- A user submitted the bug report on Buggzila
- Changes have been done to allow multiple Dolts

# Re-accelerating stopped charged particle in E-field

- This is the long existing issue
- Hisaya, Makoto, Katsuya and myself discussed to find a solution
  - We believe that we can implement this as a generic process
  - The details will be discussed with Marc Verderi
