

Session Program

15-16 May 2013

LHC Working Group on Forward Physics and Diffraction

Physics session II

CERN, 216/R-401 - Salle polyvalente PUMP HALL
216-R-401

Thursday 16 May

09:30

Physics session II

Session | **Location:** CERN, 216/R-401 - Salle polyvalente PUMP HALL, 216-R-401

09:30–09:55

LHCf; zero degree measurements for cosmic-ray model calibration

Speaker

Takashi Sako

09:55–10:15

Exclusive jet production and anomalous coupling studies

Speaker

Oldrich Kepka

10:15–10:40

Constraints on the Pomeron structure using DPE events

Speaker

Matthias Saimpert

10:40–11:00

Diffraction PDFs at HERA and implications for LHC energies

Speaker

Laurent Olivier Schoeffel

11:00–11:25

Status of and Prospects for Central Exclusive Production at LHCb

Speaker

Dr Ronan McNulty

11:25–11:50

discussion

11:50–12:00

Working group organisation, next meetings

Speakers

Christophe Royon, Mr Nicolo Cartiglia

12:00
