

## Session Program

30-31 May 2013

High  
Luminosity  
LHC

## LHC Collimation Review 2013

### ***Status DS collimation (in collision points and cleaning insertions)***

CERN, 30/7-018 - Kjell Johnsen Auditorium

## Thursday 30 May

16:10

### Status DS collimation (in collision points and cleaning insertions)

**Session** | **Location:** CERN, 30/7-018 - Kjell Johnsen Auditorium

16:10-16:30

**What do we need to decide now to have Nb3Sn dipoles in LS2? (15'+5')**

**Speaker**

Luca Bottura

16:30

## Friday 31 May

09:00

### Status DS collimation (in collision points and cleaning insertions)

**Session** | **Location:** CERN, 30/7-018 - Kjell Johnsen Auditorium

09:00–09:25

#### Status of 11T dipole program (20'+5')

**Speaker**

Mikko Karppinen

09:25–09:55

#### Integration options for collimators in the DS zones (20'+10')

**Speaker**

Vittorio Parma

09:55–10:20

#### Status of the TCLD collimator design (20'+5')

**Speaker**

Alessandro Bertarelli

10:20
