

Session Program

9-11 Oct 2014

Svenska Fysikersamfundets fysikdagarna 2014

Sektionsmöte

AlbaNova, Stockholm

Thursday 9 October

13:00

Sektionsmöte: Atom-, mol-optik

Session | Location: AlbaNova, FB55

13:15–13:40

A bottom-up approach to study light-induced reaction dynamics in molecules

Speaker

Oliver Schalk

13:40–14:05

Exploring the core-excited state of molecular water both experimentally and theoretically

Speaker

Anna Sankari

14:05–14:50

Atomic and Molecular physics with Free-electron Lasers

Speaker

Nina Rohringer

14:50–15:05

kaffe

15:05–15:30

Wigner time delay in atomic photoionisation

Speaker

David Kroon

15:30–15:55

Charge transfer reactions in hollow-cathodes with astrophysical applications

Speaker

Jonas Andersson

16:00–16:30

Sektionsmöte

17:00
