

# 12th RD50 Workshop

## Tuesday, 3 June 2008

### Full Detector Systems (10:40 - 15:00)

time	[id] title	presenter
10:40	[4] Summary: 3rd Workshop on Advanced Silicon Radiation Detectors (3D and P-type Technologies)	MANUEL, Lozano
11:10	[5] Beam telescope for testing p- and n-type detectors	Dr LUUKKA, Panja-Riina
11:30	[16] Irradiated MCz sensors for a testbeam	FREY, Martin
11:50	[12] Charge collection measurements on MICRON RD50 strip detectors and diodes irradiated with protons, pions and neutrons	KRAMBERGER, Gregor
12:10	Lunch Break	
13:40	[1] New CCE results with microstrip detectors made on various substrates	CASSE, Gianluigi
14:00	[17] Measurement of charge collection in p-type microstrip sensors with SCT128 chip	MANDIC, Igor
14:20	[28] Discussion on Full Detector Systems	CASSE, Gianluigi
14:50	Coffee Break
