

Session Program

28-29 Nov 2013

HIE-ISOLDE Workshop: The Technical Aspects *SC Linac-2 Beam Instrumentation & Alignment*

CERN, Globe of Science

Thursday 28 November

14:30

SC Linac-2 Beam Instrumentation & Alignment

Session | **Location:** CERN, Globe of Science | **Convener:** Enrico Bravin

14:30–15:00

Large area diamond detector as heavy ion beam profilers

Speaker

Marian PARLOG

15:00–15:30

The "PTFI", a beam profiler for low intensity, low energy radioactive beam measurements

Speaker

Jean-Marc Fontbonne

15:30–15:50

Introduction to the HIE-ISOLDE beam diagnostics

Speaker

Alejandro Garcia Sosa

15:50–16:10

Experimental tests of HIE-ISOLDE beam instrumentation

Speaker

Esteban Daniel Cantero

16:10–16:30

HIE-ISOLDE - Last developments of the HIE-ISOLDE alignment and monitoring system

Speaker

Guillaume Kautzmann

16:30
