

## **Session Program**

**28-29 Nov 2013**

# **HIE-ISOLDE Workshop: The Technical Aspects** ***Design Study-3: infrastructure***

CERN, Globe of Science

## Friday 29 November

16:10

### Design Study-3: infrastructure

**Session** | **Location:** CERN, Globe of Science | **Convener:** Richard Catherall

16:10–16:40

#### Status of RAON: New RIB Facility in Korea

**Speaker**

Yong-Kyun Kim

16:40–17:00

#### Design Study for the Target Area Ventilation

**Speaker**

Andrea Polato

17:00–17:20

#### Target area and new storage from FLUKA simulations

**Speaker**

Leonel Morejon

17:20–17:40

#### ISOLDE Dumps: Thermo-mechanical study of present situation and proposed design for the future

**Speaker**

Valentina Venturi

17:40
