

Session Program

17-21 Jun 2013

ICMC-2013, the International Cryogenics Materials Conference

Materials Evaluation and Testing Methods

Wednesday 19 June

13:30

Materials Evaluation and Testing Methods: 2MOrD1 orals

Session | **Location:** Kahtnu 1 | **Conveners:** Arata Nishimura, Klaus Peter Weiss

13:30–13:45

Irradiation imposed degradation of the mechanical and electrical properties of electrical insulation for future accelerator magnets

Speaker

J. Polinski, et al.

13:45–14:00

Some test results of new test facilities installed in radiation control area for investigation on neutron irradiation effect on superconducting properties

Speaker

A. Nishimura, et al.

14:00–14:15

Measurement of the Mechanical Properties of Thin Film Polymers at Cryogenic Temperatures

Speaker

W. Johnson, et al.

14:15–15:00

Characterization of Insulating Coatings for Wind-and-React Coil Fabrication

Speaker

D.W. Cheng, et al.

15:15
