

IOP Half Day Meeting on Jet Substructure for Monte Carlo Tuning

Tuesday 15 October 2013 - Tuesday 15 October 2013

Kelvin Building, University of Glasgow

Scientific Programme

We will have a mix of theory and experimental talks, summarising the current status of the substructure measurements, and MC models and tunes. Please refer to the timetable for the invited speakers and the talks.

The titles of the talks are provisional - they are being finalised in consultation with the speakers.
