## Report from Task 6.2 - 1st part (20')

*Wednesday, 13 November 2013 09:30 (20 minutes)*

Cryogenics for the cold powering systems in LHC P7

- Given boundary conditions, mechanical, lay-out and process,...
- Retained solution for the cryogenic circuit
- Influence on the performance of the existing LHC refrigerators
- List of items do be defined, designed, build and installed
- List of open questions

**Presenter:** WAGNER, Udo (CERN)

**Session Classification:** WP6
