Report from Task 6.2 - 1st part (20')

Wednesday, 13 November 2013 09:30 (20 minutes)

Cryogenics for the cold powering systems in LHC P7

- Given boundary conditions, mechanical, lay-out and process,...
- Retained solution for the cryogenic circuit
- Influence on the performance of the existing LHC refrigerators
- List of items do be defined, designed, build and installed
- List of open questions

Presenter: WAGNER, Udo (CERN)

Session Classification: WP6
