Report from Task 6.2 - 2nd part (30')

Wednesday, 13 November 2013 09:50 (30 minutes)

Cryogenics for the cold powering systems in LHC P1 and P5

- Given boundary conditions, mechanical, lay-out and process,
- Overview of considered cooling solutions for the cryogenic circuit
- Influence on the energy consumption
- List of open questions

Presenter: WAGNER, Udo (CERN)

Session Classification: WP6
