

## **Session Program**

**3-4 Apr 2008**

# **Workshop on Experimental Conditions and Beam Induced Detector Backgrounds**

***Experience and recommendations from  
Tevatron, HERA and RHIC***

CERN, AT Auditorium

# Thursday 3 April

09:00

## Experience and recommendations from Tevatron, HERA and RHIC

**Session** | **Location:** CERN, AT Auditorium

09:00-09:10

### Welcome

09:10-09:40

### Tevatron: Sources & cures of background - machine and experiments perspective

#### Speaker

Rick Tesarek

09:40-09:55

### Discussion

#### Speaker

All

09:55-10:15

### HERA: Sources & cures of background - machine perspective

#### Speaker

Bernhard Holzer

10:15-10:25

### Discussion

10:25-10:45

### Coffee

10:45-11:05

### HERA background at the HERA - experiments perspective

#### Speaker

Carsten Niebuhr

11:05-11:15

### Discussion

11:15-11:35

### Background in RHIC

#### Speaker

Dr Wolfram Fischer

11:35-11:45

### Discussion

11:45-12:05

### Expected sources of background in LHC operation

#### Speaker

Mike Lamont

12:05-12:15

### Discussion

12:30
