

Review of LHC and Injector Upgrade Plans Workshop (RLIUP)

Tuesday 29 October 2013

Session 2 - Post LS1 scenarios without and with LINAC4 (14:30 - 18:30)

-Conveners: Gianluigi Arduini; Steven Hancock

time	[id] title	presenter
14:30	[0] Expected performance in the injectors at 25 ns without and with LINAC4 (30' + 10')	RUMOLO, Giovanni
15:10	[1] Integrated performance of the LHC at 25 ns without and with LINAC4 (30' + 10')	WENNINGER, Jorg
15:50	Coffee Break	
16:20	[2] Required maintenance and consolidation to run like that (injectors and LHC) until 2035? (30' + 10')	FORAZ, Katy
17:00	[3] What could stop us, when and how long? (15' + 10')	BOTTURA, Luca
17:25	[34] Free time for discussions
