

The Structure and Signals of Neutron Stars, from Birth to Death

Contribution ID: 124

Type: **not specified**

The Equation of State of Neutron Star Matter

Monday 24 March 2014 09:10 (40 minutes)

The main features of the EOS of neutron star matter are reviewed, comprising nucleonic, hyperonic, and quark matter contributions. The focus is on the Brueckner-Hartree-Fock theoretical method, but also other approaches will be regarded.
