

Session Program

1-2 Apr 2004

Frequency Map Analysis Workshop

Model and Experiment (II)

LURE (France), Building 209D, room 110

Friday 2 April

14:00

Model and Experiment (II): A. Ropert

Session | Location: LURE (France), Building 209D, room 110

14:00-14:30

Refinements of the non-linear lattice model for the BESSYII storage ring (P. Kuske)

14:30-15:00

Global discussion on the importance of a very detailed model of the nonlinear fields

15:00
