PLANCK: 2013 Results and Future Prospects

Monday 7 April 2014 16:15 (25 minutes)

I review the main cosmology results from the 2013 Planck release. I will also discuss some developments since the original submission of the papers, and put the Planck results in the context of more recent results from the BICEP2 experiment.

Presenter: Dr CHALLINOR, Anthony

Session Classification: Plenary 2

Track Classification: Particle Astrophysics, Current and Future
