

International Conference on MATTER AT EXTREME CONDITIONS : THEN & NOW

January 15-17, 2014

Bose Institute Kolkata, India

The conference aims to discuss the evolution of our understanding of matter at extreme conditions, present status and future directions envisaged. The conference consists mainly of invited plenary talks. A limited number of students and young researchers could be accommodated in the program. Interested people are requested to apply with abstract and one letter of recommendation on or before **September 30, 2013**.

INTERNATIONAL ADVISORY COMMITTEE

Somnath Chakrabarty	VU
Paolo Giubellino	CERN
Sourendu Gupta	TIFR
Ajit K. Mohanty	BARC
Sibaji Raha	BI
Peter Senger	GSI
Bikash Sinha	DAE
Dinesh K. Srivastava	VECC
Ajit M. Srivastava	IOP
Horst Stoecker	GSI
Yogendra P. Viyogi	VECC
Nu Xu	LBNL

TOPICS

- Initial condition
- E. M. Probes
- Multiparticle production, fluctuations and correlations
- Collective effects and medium modification
- Nonperturbative aspects
- Jets and heavy flavours
- Astrophysical aspects

LOCAL ORGANIZING COMMITTEE

Chairman

Sanjay K. Ghosh *BI*

Jt. Conveners

Jane Alam *VECC*

Abhijit Bhattacharyya *CU*

Munshi Golam Mustafa *SINP*

Members

Subhashis Chattopadhyay *VECC*

Supriya Das *BI*

Gautam Gangopadhyay *CU*

Premomoy Ghosh *VECC*

Tapan K. Nayak *VECC*

Rajarshi Ray *BI*
