

Session Program

26-27 Aug 2013

**LHC Working Group on Forward Physics and
Diffraction**

Medium luminosity session

CERN, 40/S2-D01 - Salle Dirac

Monday 26 August

14:00

Medium luminosity session

Session | **Location:** CERN, 40/S2-D01 - Salle Dirac

14:00–14:30

Probing the small x gluon via exclusive J/Ψ and Upsilon production at HERA and the LHC

Speaker

Stephen Jones

14:30–15:00

Forward jets and displaced vertices

Speaker

Dr Luebbo von Lindern

15:00–15:30

Exclusive processes

Speaker

Antoni Szczurek

15:30–16:00

Coffee break

16:00–16:30

Forward physics in pA

Speaker

Cyrille Marquet

16:30–16:40

A preliminary plan to measure diffractive Z production in CMS

Speaker

Diego Matos Figueiredo

17:00–17:30

Discussion

18:00
