

EDS Blois 2013: The 15th conference on Elastic and Diffractive scattering

Wednesday 11 September 2013

CEP & new physics with rapidity gaps (09:00 - 10:45)

-Conveners: Michael Albrow; Katri Huitu

| time | [id] title | presenter |
|-------|--|-------------------------|
| 09:00 | [26] Forward Diffractive Heavy Flavour production | PASECHNIK, Roman |
| 09:20 | [27] Exclusive Production at HERA | MALKA, Janusz |
| 09:40 | [28] Exclusive meson pair production and the gluonic component of the eta, eta' mesons | HARLAND-LANG, Lucian |
| 10:00 | [29] Central production of two-pseudoscalar final states at COMPASS | AUSTREGESILO, Alexander |
| 10:20 | [30] Central Exclusive Hadrons in CDF | ALBROW, Michael |

CEP & new physics with rapidity gaps: CEP & new physics with rapidity gaps (11:10 - 13:00)

-Conveners: Michael Albrow; Katri Huitu

| time | [id] title | presenter |
|-------|--|---------------------|
| 11:10 | [31] Central Exclusive Production in STAR (RHIC) | ADAMCZYK, Leszek |
| 11:30 | [33] Update on CEP Higgs | KHOZE, Valery |
| 11:50 | [34] CEP MSSM Higgs | Dr TASEVSKY, Marek |
| 12:10 | [63] TOTEM future plans | OESTERBERG, Kenneth |
| 12:20 | [59] The PPS (Precision Proton Spectrometers) project in CMS, Status | ALBROW, Michael |
| 12:30 | [60] The ATLAS Forward Proton (AFP) project, Status | SYKORA, Tomas |
