

XXX-th International Workshop on High Energy Physics “Particle and  
Astroparticle Physics, Gravitation and Cosmology: Predictions, Observations  
and New Projects”

Contribution ID: 27

Type: **not specified**

## Hadronic cross section and implications for the muon $g-2$

*Monday 23 June 2014 15:25 (25 minutes)*

**Presenter:** GOLUBEV, Vladimir (Budker Institute of Nuclear Physics)

**Session Classification:** SM physics and beyond
