

XXX-th International Workshop on High Energy Physics “Particle and
Astroparticle Physics, Gravitation and Cosmology: Predictions, Observations
and New Projects”

Contribution ID: 58

Type: **not specified**

**Strong thermal Leptogenesis: an exploded view of
the low energy neutrino parameters in the
SO(10)-inspired model**

Friday 27 June 2014 14:30 (25 minutes)

Presenter: MARZOLA, Luca (University Of Tartu)

Session Classification: Theoretical and observational cosmology
