

XXX-th International Workshop on High Energy Physics “Particle and
Astroparticle Physics, Gravitation and Cosmology: Predictions, Observations
and New Projects”

Contribution ID: 96

Type: **Presentation**

Rare decays of b- and c-hadrons at LHCb

Monday 23 June 2014 16:15 (25 minutes)

Rare decays of beauty and charm hadrons test the flavour structure of the underlying theory at the level of quantum corrections. They provide information on the couplings and masses of heavy virtual particles appearing as intermediate states. A review of recent LHCb results will be presented.

Presenter: PESCATORE, Luca (University of Birmingham (GB))

Session Classification: SM physics and beyond
