

XXX-th International Workshop on High Energy Physics “Particle and Astroparticle Physics, Gravitation and Cosmology: Predictions, Observations and New Projects”

Monday, 23 June 2014

Physical possibilities of future colliders and other facilities - Conference Hall (17:25 - 19:30)

time	[id] title	presenter
17:25	[6] Electroweak Processes in Laser-Boosted Lepton Collisions	Dr MUELLER, Sarah
17:50	[14] Backgrounds and calorimetry at future linear colliders	Dr MARKIN, Oleg
18:15	[15] ILC project	TITOV, Maksym
18:50	[92] ALICE Fast Interaction Trigger detector for the future	KARAVICHEVA, Tatiana
19:10	[106] IHEP: status and prospects	Dr IVANOV, Sergey
