

## **Session Program**

**26-30 May 2008**

# **HERA and the LHC**

***PDFs***

CERN

## Tuesday 27 May

09:00

### PDFs: Small x resummation

Session | Location: CERN, 40-S2-C01

09:00-09:20 **Small-x resummation: the Thorne-White approach****Speaker**

Chris White

09:30-09:50 **Small-x resummation: the ABF approach****Speaker**

Guido Altarelli

10:00-10:20 **Small-x resummation: the CCSS approach****Speaker**

Anna Stasto

10:30-10:50 **Small-x resummation: the EKR approach****Speaker**

Douglas Ross

11:00-11:15 **coffee break**

11:15

### PDFs: Saturation (I)

Session | Location: CERN, 40-S2-C01

11:15-11:35 **Saturation and the determination of PDFs****Speaker**

Francois Gelis

11:45-12:05 **Geometric scaling from DGLAP evolution****Speaker**

Fabrizio Caola

12:15-12:35 **Alternative forms of geometric scaling with running coupling****Speaker**

Guillaume Beuf

12:45
