

HERA and the LHC

Wednesday, 28 May 2008

Diffraction - 40-S2-D01 (14:00 - 18:00)

time	[id] title	presenter
14:00	[124] Physics with forward detector systems at LHC	BUSSEY, Peter
14:30	[125] Soft and central exclusive diffraction: possibilities for the early LHC runs	MARTIN, Alan
15:15	[126] Color fluctuations and exclusive double Pomeron processes	STRIKMAN, Mark
15:45	break	
16:15	[127] A novel jet definition for forward radiation in diffractive DIS	TRENTADUE, Luca
16:45	[128] Exclusive channels in pp collisions	MOTYKA, Leszek
17:15	[129] Two-photon and photon-hadron interactions at the LHC	NYSTRAND, Joakim
